

Pythian Lodge recognized for Communicating to members

June 12, 2012

In order to communicate to its members, Pythian lodges often rely on newsletters that they mail and/ or email. To encourage the lodges to use this effective form of getting the word out about meetings, functions and programs, and to include information about Grand Lodge initiatives and events, Grand Lodge created the Subordinate Lodge Bulletin Committee. The committee not only reviews and recognizes Lodges newsletter at the conclusion of each Pythian year but provides material that subordinate lodge bulletin editors may use to publicize programs.
